Omar Mazen

has successfully completed the online, non-credit Specialization

CompTIA Network+ Certification (N10-008): The Total Course

Congratulations on successfully completing the CompTIA Network+ Certification (N10-008) course! This comprehensive program has equipped you with a deep understanding of networking principles, including cabling, routing, wireless systems, and network security. Through detailed lessons, hands-on scenarios, and troubleshooting techniques, you've gained the practical skills necessary to design, manage, and secure network infrastructures. You're now prepared to take on the Network+ certification exam and excel in roles requiring network expertise. Your journey into IT networking has reached a significant milestone!
